Subject: Spring 2008 SMG Winners

Well, another school year is wrapping up and we wanted to make sure that the winners of The Stock Market Game for this semester are acknowledged!

Overall, we saw much better returns on investment in almost all teams this semester over last, which as you all know results from a number of factors. I would say, however that the work of student teams this semester was great.

One thing we also saw was the ranking of several new teachers who have winning teams this semester, and we want to congratulate them and their teams on a good job. Also, we must not forget those teachers who have integrated The Stock Market Game as a standard part of their curriculum. They are also well represented here, and their efforts are also to be applauded.

Following is a listing of the winners of the Spring 2008 Stock Market Game.
