Description	Qty	Each	Total
<p>Proposal for HVAC maintenance for the 35 Roof-top units, one exhaust blower and two portables classrooms.</p> <p>My suggested servicing of these units are:</p> <p>Twice per year service including operational inspection and testing for the appropriate season with a condenser cleaning for the spring.</p> <p>My proposed schedule is for May and October with the condenser cleaning planned for May. Both service times will have filters changed and the appropriate operational tested.</p> <p>In my experience, combined with the process I do with my other commercial accounts, belt replacement or adjustment "as needed" has worked well.</p> <p>In my last service I noticed that three unit have constant fan operation. On these units the filters were far dirtier so I would suggest that the fan setting be placed to "Auto" during the night if not always.</p> <p>My last service was in August and the filter condition for all but those three unit was moderately dirty; in need of changing but not to the point of altering performance.</p>

Description	Qty	Each	Total
<p>Blower belt replacement or adjustment is \$ 25.00 per unit with the exception being the two large units for the Gym. They use larger twin belts and are more difficult to adjust so their pricing would be \$ 85.00 per unit.</p> <p>Pricing is current for one calendar year and subject to adjustment prior to the end of the current calendar year.</p> <p>May HVAC service as described above : \$ 1790.00 plus belts / adjustment and needed repair parts.</p> <p>October HVAC service as describe above : \$ 1370.00 plus belts / adjustment and needed repair parts.</p> <p>Yearly expense plus belts and parts \$ 3160.00</p> <p>No repair parts will be replaced without authorization from Amy Weber or equal. Belt replacement / adjustment is at the technicians discretion. At our last service two belts needed adjustment and one needed replacing; all others are in good condition.</p> <p>Thank you !!</p>

TO:
George Coburn
Business Manager
Northstar Charter School

Dear George,

Below I have listed the 7 projects we are managing this summer. The 7th, sports field maintenance, will be excluded as it was constructed by Veritas and therefore is ours to warranty. I have based my fee on the time I believe each will take to accomplish. This fee will be charged monthly, in arrears and pro rata, beginning March 1, 2019. My goal will be to see substantial completion (with 100% usage) on new projects by August 15, 2019, and completion of warranty items by that date or earlier, if possible.

Project management fee: \$9,100.00

Hourly rate: \$65.00

Hours estimated: 140 total (5 per week, 20 per month, 7 months)

1. New construction – brick/plaza, benches, shade sails, outdoor classroom and tables
2. Pour in place – playground area (warranty work)
3. Equipment replacement – Toss & Score and Slide (team Veritas?)
4. Color pave – peeling and wearing in spots (warranty work)
5. Sports court – irrigation system damage to surface and subsurface (warranty)
6. Support Northstar in bidding of field perimeter fencing
7. Sports field maintenance – maintenance work on sunken areas and additional seed work from geese.
