

NS Elementary Families,

Teachers are working diligently to deliver the first steps toward remote learning in the elementary starting this Wednesday. Please know these three days are a start to what we will offer if we end up having to go longer term with remote learning than planned now. Please be patient as we navigate new territory. Teachers will be reaching out soon, so be watching for details.

***Students are expected to log into/connect with their teacher beginning Wednesday, March 18 through Friday, March 20. Teachers will take attendance and report absences in Powerschool on these days. If no materials are accessed, assignments completed or communication made, your child will be marked absent. Please do your best to follow what the teacher is providing so that we can report grade level instructional minutes to the state department as required.***

Please reach out to NS friends around you who are not as good at checking emails. It will be vital to do so moving forward. Students will have their normal Spring Break March 23-27th so no attendance required or school work expected.

Our ultimate goal is to continue educating our students and be able to end the school year strong on May 22 but we will communicate towards the end of spring break as things unfold.

Stay healthy and I hope to see your children soon!
