The Idaho Legislature is under no legal obligation to make appropriations to fulfill this Contract. Additionally, the federal government is not legally obligated to provide funds to fulfill this Contract. This Contract shall in no way or manner be construed so as to bind or obligate the District or the state of Idaho beyond the term of any particular approved District budget, appropriation of funds by the Idaho Legislature, or beyond any federal funds granted to the District, as may exist from time to time. The District reserves the right to terminate this Contract in whole or in part (or any order placed under it) if, in its sole judgment, the District's Board of Trustees neglects, fails, or refuses to approve a budget sufficient for the District to continue payments, the Legislature of the state of Idaho fails, neglects, or refuses to appropriate sufficient funds as may be required for the District to continue such payments, or requires any return or "give-back" of funds required for the District to continue payments, or if the Executive Branch mandates any cuts or holdbacks in spending, or if funds are not budgeted or otherwise available (e.g. through repeal of enabling legislation), or if the District discontinues or makes a material alteration of the program under which funds were provided, or if federal grant funds are discontinued. The District shall not be required to transfer funds between accounts in the event that funds are reduced or unavailable. All affected future rights and liabilities of the parties shall thereupon cease within ten (10) calendar days after notice to Contractor. Further, in the event that funds are no longer available to support this Contract, as described herein, the District shall not be liable for any penalty, expense, loss of profits, or liability, or for general, special, incidental, consequential, or other damages resulting therefrom. At Contractor's request, the District shall promptly provide supplemental

documentation as to such termination for fiscal necessity. Nothing in this section shall be construed as ability by the District to terminate for its convenience.

12. Billing, Payment and Verification Procedures:

- a. *Billing and Payment.* On or before the eighth (8th) day of each month of each school year covered by this contract, Contractor shall submit to School a bill that shall include a detailed account showing the mileage covered in each category of transportation furnished during the preceding month. On or before the fifteenth (15th) day of the month in which the bill is submitted, School agrees to pay Contractor the contract price for those services that it shall find to have been rendered, computed on the basis of the bid submitted by the Contractor to School, adjusted by the terms of the adjustment provisions set forth in Sections 14-15 below, if applicable. Contractor agrees to submit to School a year-end summary for state reimbursement by August 1st of each year for the preceding one-year period.
- b. *Past Due Billings¹.* If payment is not received by the fifteenth (15th) day of the month, which follows the month the billing was originally submitted, transportation will cease at the end of the month that the billing became past due.

13. Alternative Payment Schedule.

- a. In the event of a school closure due to weather or any other unforeseen circumstance, no adjustments will be made to the contract and there will be no compensation paid to the Contractor for days that school is not in session and that school buses do not operate.
- b. Due to extenuating circumstances, School and Contract may negotiate a mutually agreed Alternative Payment Schedule.

14. Consumer Price Index (C.P.I.) Adjustment.

- a. *Applicable Annual C.P.I. adjustment* shall be based on the Consumer Price Index as defined by the Federal Government. The C.P.I. to be used will be the "Consumer Price Index for All Urban Consumers: U.S. City Average for All Items (1982-84 = 100)" published monthly in the Monthly Labor Review of the Bureau of Labor Statistics of the United States Department of Labor ("CPI-U"). In the event the CPI-U is discontinued, the alternate C.P.I. which will be used will be the "Consumer Price Index for All Urban Wage Earners and Clerical Workers: U.S. City Average for All Items (1982-84 = 100)" published monthly in the Monthly Labor Review of the Bureau of Labor Statistics of the United States Department of Labor ("CPI-W"). Further still, in the event both the CPI-U and the CPI-W are discontinued, comparable statistics on the purchasing power of the consumer dollar published by the Bureau of Labor Statistics of the United States Department of Labor will be used for the computation.

¹ Example of timeline for past due billings: March billing - submitted April 8th, April 16th - billing past due, May 1st 30-day notice declaring the School in default, May 15th - amount still past due, transportation will cease if payment not received by May 31st.

b. *C.P.I. Adjustment Calculation.* The base contract shall be for a term of five (5) years, beginning August 1, 2025. The prices bid by contractor will be used for the operations during the first year of the contract, August 1, 2025 through July 31, 2026. Contractor compensation for the second, third, fourth, and fifth years of the contract, beginning on August 1 of each successive year, shall be based on the percentage of increase (or decrease) in the Consumer Price Index (C.P.I.-U). The “Benchmark Month” for determining the change in the C.P.I.-U shall be May 2025. If the increase (or decrease) in the C.P.I.-U from the Benchmark Month compared to May 2026 is at least one percent (1%), the rates for the second year of the contract shall be adjusted. The increase (or decrease) calculation is cumulative over the entire contract period. See the following “Sample Calculation”. This procedure and calculation will be followed to determine the rate charges for the remaining years of the contract.

c. *C.P.I. Diesel Fuel Price Removal.* In calculating the C.P.I.-U each year, an adjustment to the C.P.I.-U will be made to remove the diesel fuel portion from the C.P.I.-U index before applying the C.P.I.-U to the rates. The calculation will be made according to the recommended methodology by the State of Idaho Department of Education using information from the U.S. Department of Labor, Bureau of Labor Statistics.

d. *Addition to Annual C.P.I. Adjustment.* In the event that market changes, regarding labor, specifically school bus drivers, the School and Contractor will have the right to negotiate an increase in addition to the Annual C.P.I. increase, in order to allow the Contractor to provide a competitive pay rate and to continue to provide the appropriate number of qualified school bus drivers.

15. Fuel Price Fluctuation Adjustment

a. *Base Price.* To protect both the School and Contractor against future changes in fuel prices over which neither School nor Contractor have control, the School will figure a base price for fuel as of Monday, May 5, 2025. The base price of diesel #2 low sulfur is **\$3.0455**. This price does include applicable State and/or Federal taxes. The base price was determined by using the Oil Price Information Service (OPIS) average price for the State of Idaho and confirmed with local supplier.

b. *Calculation of Adjustment.* Starting August 1, 2025, the Contractor’s rates will be adjusted up or down for any difference in the base fuel price above or below the base fuel price. For every incremental fuel price change of at least five cents (\$0.05) above or below the base fuel price, there will be a fuel price adjustment added or subtracted from the route rates in the amount of \$.50 per-route-per-day. Rate adjustments up or down will not be calculated more frequently than once per month.

c. Contractor will be entitled to the C.P.I. Adjustment and the Fuel Price Fluctuation Adjustment. The use of one adjustment does not preclude the use of the other adjustment.

16. Mandates by Local, State or Federal Government. It is recognized that governmental mandates, whether local, state or Federal, that were unanticipated and/or did not exist at the time of bidding, that might require additional training, retrofitting of equipment or any other requirements that become necessary to fulfill the terms of the contract, might be adopted and effective during the period of the contract. In the event of a governmental mandate, it will be required that the School and Contractor initiate negotiations as to the cost of the mandate.
17. Effect of Changes to School Busing Model. It is understood and agreed by School and Contractor that the bidding by Contractor for this contract was predicated on the student transportation model currently in place for the School. In the event of any changes implemented by School during the term of this contract to the existing student transportation model, including any efforts to address the negative effects of the State of Idaho's student transportation Funding CAP, the parties agree that all rates for the contract will be reviewed and renegotiated by the parties for the remainder of the contract term to take into account the altered School student transportation model or other changes made by the School.
18. Record Keeping. The District may audit, in such a manner and at all reasonable times as it deems appropriate, activities of the Contractor arising in the course of its undertakings under this Contract. The Contractor shall maintain books, records, documents, and other evidence of procedures and practices related to the performance of this Contract as required by the District. The District may have access to the Contractor's books, documents, or records used to prepare the billing for Student Transportation Services provided that are directly related to this Contract. The Contractor shall maintain all books, records, and other documents relevant to this Contract for three (3) years after final payment and any person duly authorized by the District shall have full access to and right to examine any of said materials during this period. If an audit, litigation, or other action involving records is initiated before the three (3) year period has expired, the records must be retained until all issues arising out of such actions are resolved, or until a three (3) year period has passed, whichever is later. For any such audit, if called for by the District, it shall be at the cost and expense of the District, not the Contractor.
19. Inspection. The may inspect any and all buses and their operation by riding as passengers or by other reasonable means.
20. Time of the Essence. Accordingly, the Contractor shall prosecute the work diligently to assure adherence to the schedules.
21. Assignment of Contract. The Contractor agrees not to assign this Contract, or any interest in the Contract, without the prior written approval of the District, which approval shall not unreasonable be withheld.
22. Failure of Operation. In the event that the Contractor fails to operate any route because of the failure of equipment or personnel, Contractor shall adjust the billing for the month the failure occurs. The adjustment will be based on the current rate per bus.

- a. *By District.* In the event the District desires to terminate the contract it shall give the Contractor written notification of that intent on or before January 15, immediately preceding the upcoming school year. If, after the notice has been given, mutual agreement cannot be reached for continuing the contract, the School may terminate the contract by giving a second written notice to the Contractor on or before March 15 of the same year.
